

TEXTILE SCIENCE AND ECONOMY IX – PROGRAMME OF WORK

WORKING VERSION

(20 maj 2019) AMPHITHEATER AT THE FACULTY „MIHAJLO PUPIN“ - ZRENJANIN 10:00 – 10:30 OPENING
President of the Organizing Committee; Dean of the Faculty; Guests from abroad; Representatives of republic, regional and local government; Representatives of the Provincial and Regional Chamber of Commerce; Owners and company representatives, President of Scientific Board
Coffee break and visit to textile laboratories
ORAL PRESENTATIONS 10:30 - 13:30
I Ph.D. John Wilson: Initiative Belt and Road-Belt and Road World Textile University Alliance, Donghua University, China
II Ph.D. Wang Hua: The place of the textile industry in the initiative Belt and Road, Donghua University, China
III Ph.D. Xu Ming: Universities as a potential link in home textile e-commerce research between China and east Europe, Donghua University, China
IV Ph.D. Guoxiang Yuan: Intangible Cultural Heritage Project in Donghua - creative design of traditional embroidery, Donghua University, China
V Gordan Smudj: 4.0 Industrial Revolution-CAD/CAM equipment from company Lectra, Lectra, France
VI Marko Marinkovic: Trends in digital textile printing development, Mimaki, Japan
VII Ph.D. Ece Kalayci...: Dyeing performance comparison of soybean fibers with direct dyes with conventional and microwave technologies, Pamukkale University, Turkey
VIII Ph.D. Eugenia Elena Riemschneider: Intelligent textile materials, West University, Romania
IX Ph.D. Samir Pacavar: Textile industry of Bosnia and Herzegovina, University of Travnik, Bosnia and Herzegovina
X Fashion show of the students
14:00 – 15:00 Lunch
ROUND TABLE 15:00 – 16:30
Conversation of professors and businessmen about cooperation within the initiative Belt and Road
ORAL PRESENTATIONS – section A 16:30 - 18:00 (exposure time 5 minutes)
I Ph.D. Ramisa Yahyapour ...: Evolution of the performance of non-piezo layers on flexible piezoelectric harvesters, Textile Engineering Department, Amirkabir University, Tehran, Iran
II Ph.D. Niloufar Khomarloo ...: Challenges review on functional fibrous materials based electronicskin, Institute for Advanced Textile Materials and Technology (ATMT), Textile Engineering Department, Amirkabir University of Technology, Tehran, Iran
III Ph.D. Edit Csanák: Craft & tradition: challenges of reinterpreting national heritage in fashion and textile design, Obuda University, Hungary
IV MSc Fitsum Etefa: Design and development of manual hank reeling machine, Ethiopian Institute of Textile and Fashion Technology, Ethiopian
V Ph.D. Goran Demboski ...: Seam puckering of cotton shirt after laundering, Ss. Cyril and Methodius University, Macedonia
VI Ph.D. Emilija Toshikj...: Alkali sensitivity of oxy-celluloses, Ss. Cyril and Methodius University, Macedonia
VII Ph.D. Nina Mladenovic...: Rice husk as bio-adsorbent for direct dyes removal from aqueous solution: equilibrium study, Ss. Cyril and Methodius University, Macedonia
VIII Ph.D. Blazenka Brlobasic Sajatovic...: The influence of anthropometric measurements on closing size system of bras, University of Zagreb, Croatia
IX Ph.D. Ksenija Dolezal, The development of the clothing size system, University of Zagreb, Croatia
X Ph.D. Vojislav Gligorijevic...: Modeling and mechanics of cross-knitted knitwear, University of Nis, Serbia
XI MSc Marija Pesic...: Influence of the structure of textile materials on the comfort of clothing, University of Novi Sad, Serbia

ORAL PRESENTATIONS – section B 16:30 - 18:00 (exposure time 5 minutes)	
I	Professor Veasna Tith: Cambodian silk, The Royal University Of Fine Art, Cambodia
II	Ph.D. Vasilije Petrovic...: Influence of the raw material composition of knitwear on comfort clothes, University of Novi Sad, Serbia
III	Ph.D. Maja Jankoska: Pressing performance of woven fabrics for men`s suit, Ss. Cyril and Methodius University, Macedonia
IV	MSc Mihalj Bakator...: Improving competitiveness through clustering in the domestic textile industry, University of Novi Sad, Serbia
V	Anita Milosavljevic...: Analysis of the influence of fabric parameters on deformation characteristics of seams University of Novi Sad, Serbia
VI	Valentina Bozoki...: Application of textile for diving suits, University of Novi Sad, Serbia
VII	Anita Milosavljevic...: Analysis of the influence of sewing parameters on the deformation characteristics of seams, University of Novi Sad, Serbia
VIII	Jovan Radisic...: Application of textile materials in the automotive industry, University of Novi Sad, Serbia
IX	Valentina Bozoki...: Louis Vuitton - lord of bags, University of Novi Sad, Serbia
X	Anita Milosavljevic...: Analysis of the influence of the density of fabrics on its strength, University of Novi Sad, Serbia
XI	Ph.D. Maja Jankoska: Design of women's cape and modeling with applied elements of jacket, SS. Cyril and Methodius University, Macedonia
XII	MSc Marija Pesic...: A research of thermal properties of dyed 1x1 rib knitted fabric, University of Novi Sad, Serbia
20:00 Dinner	
(21 maj 2019)	
08:00 - 19:00 Visit of foreign guests to state institutions and places of cultural significance	
(22 maj 2019) CLOSING
